Preface

The brief work traces the descendants of John (Johannes) Wolfensberger, the original emigrant to Philadelphia in 1730, in their move through Virginia to Tennessee. I have attempted to describe some of the struggles of Peter Wolfensberger and Susan Mueller and Peter's brothers and their families to build a new life and homestead in Greenbrier Valley of the French and Indian Territory south of the Ohio River. It is my intention to give insight into the Wolfenbarger family background and how the final spelling was derived.

Gathering materials for this work has taken me on several trips to Switzerland, Germany, France and Austria. Hours of research have been done in libraries and courthouses in Virginia, West Virginia, and Tennessee. Primary thanks must go to Stephanie Richter, Bonnie Wolfenbarger, and Tommy Wilson and a special thanks to my Aunt Trula Wolfenbarger Berry and our cousins Mrs. Eva Kitts Luttrell and Mrs. Ada Kitts Daniels all of Knoxville, Tennessee. Without the work of the above mentioned family members, much of the data on the following Wolfenbarger family would not have been possible. I want to extend a special thanks to Caroline Wolfenbarger, my daughter, and Marcus Aulbach of Aschaffenburg, Germany, for their research in Zurich, Switzerland.

Jacob was Peter's father-in-law

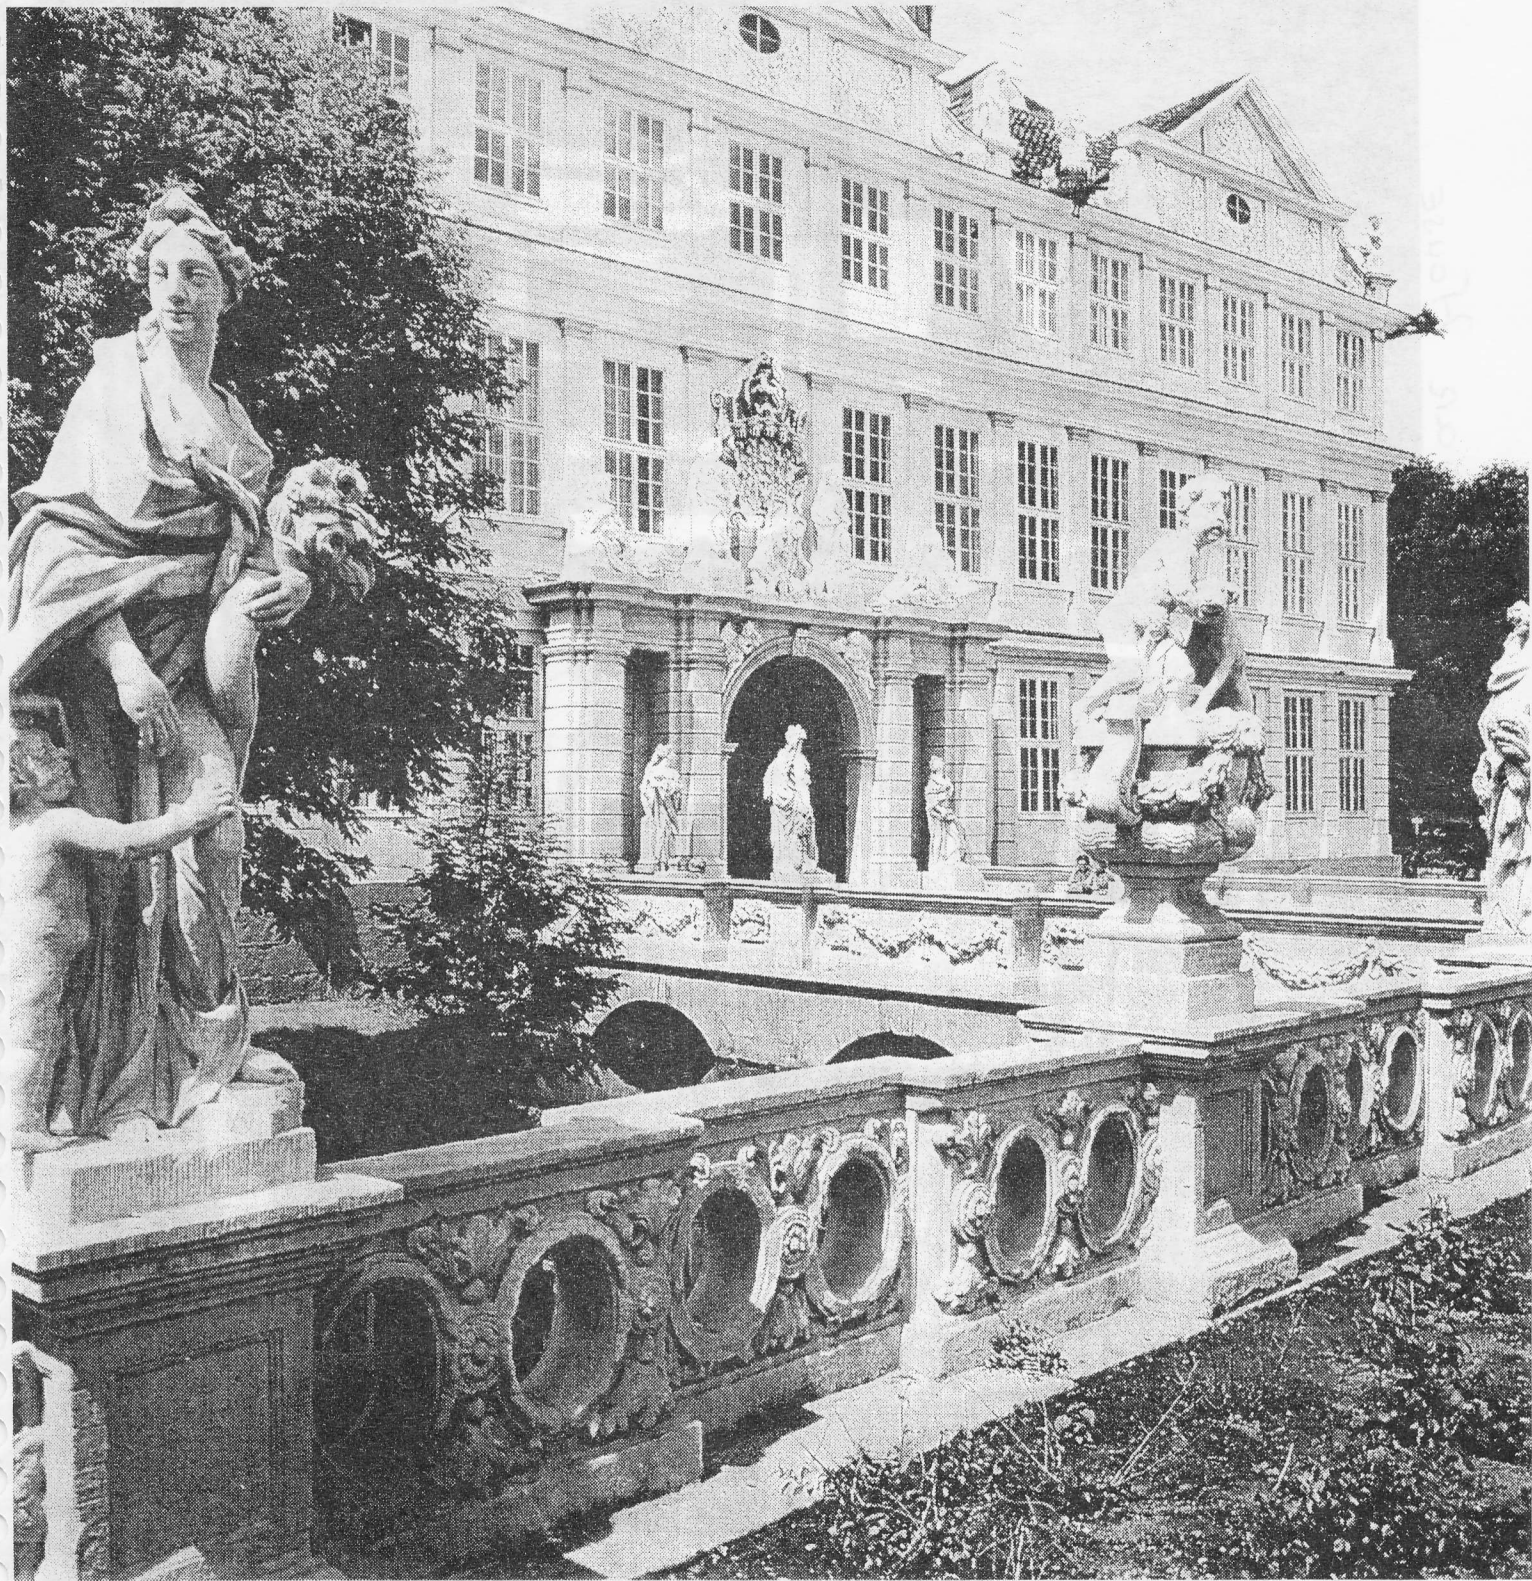

In 1752, Jacob Müller, obtained a land grant from Lord Fairfax which included the area later to be known as Woodstock. He proceeded to lay out the town known as Muellerstadt in half-acre and 5 acre lots. In 1761, when George Washington sponsored an act in the House of Burgesses to charter the new village, the town was named Woodstock. The old stone courthouse was built in 1795 and is the oldest courthouse still in use west of the Blue Ridge. The original streets were given typical colonial names, many of which were changed after the Revolutionary War: King (Main), Queen (Muhlenberg), Duke William (Church), Fairfax (Locust), Martin (High) and Pitt (Spring). Visitors may want to take the Woodstock Museum self-paced walking tour downtown along these old streets where many of the early homes from the 18th and 19th centuries remain in use today.

PETER J. WOLFENBARGER

The family name of Wolfensberger first appears in the twelfth century when some of the family moved from the servant class to the interim status of royalty. Herman Wolfensberger was crowned Knight of Baldenburg on November 16, 1315, in Austria and was ushered into the Royal Service of the Hartzog, Leo Poel of Austria. This honor was given for his distinguished service fighting with the Crusaders in the Holy Land against the Turkish warriors who had sacked and burned Jerusalem. Herman's descendants moved up in class by slowly climbing the social ladder through marriage until they were in a position to serve the royal family. ¹

The Wolfenbargers of today have been able to follow their line directly back to the fourteenth century and establish a tie with Han zu Wolfsberg. He was born about 1395 in Ober Wolfsberg, Bauma, near Zurich, Switzerland and buried behind a monastery he endowed in a town called Rütli, Switzerland.² After moving into the royal society, some of the Wolfensbergers became quite prominent throughout Austria and Germany's upper classes

The Wolfensberger family groups were not all prominent. Many were tradesmen such as printers, brokers, butchers, and smiths. In the fifteenth century, times were difficult in Europe. The threat of war was developing between the ruling class and the Catholic Church in Rome. Tradespeople owned no land and had little to lose when revolution began. The middle class soon became powerful, particularly the tradesmen who formed guilds. Guilds are roughly comparable to modern unions, but they required extensive training

before admission. In addition, the guilds were generous patrons of the arts.

Because they were no longer under the tight control of the ruling class, many of the poorer Wolfensberger family migrated throughout Germany and France during the sixteenth and seventeenth centuries. The people in Europe knew of the New World and about the vast unpopulated territories of land to claim. The idea of leaving home in search of freedom (possibly because of religious persecution) was enticing to the Wolfensberger family, the desire overwhelming. It is difficult to imagine what it must have been like for the Wolfensbergers to leave behind their home on the Swiss-German border. Extreme difficulties with either their religion, social demands, or both must have driven them to leave their families and their home for hundreds of years.

Emigrants often were forced to sell all their worldly possessions in order to have enough to pay passage from their hometown to the port of choice in America. When the Wolfensbergers of Alsace, Germany, left, they had enough money, however, for passage and seven excess pounds of gold with which to acquire land in Pennsylvania.

In order for the Wolfensbergers to begin their adventure from the Oberland near Strasbourg in Alsace to the rolling hills of Appalachia, they first had to make their way to a river port like Ludwigshafen on the Rhine River. There they purchased passage on a large Scottish vessel, The Thistle of Glasgow, to take them through the beautiful Rhine River valley to the river ports of Wiesbaden, Mainz, and Cologne. In these cities, they could buy necessary supplies like fresh fruits and vegetables, milk and bread.

After boarding the Thistle in Ludwigshafen, the family traveled for two more days to the port of Rotterdam. ³

Unknowingly, these immigrants passed near the state of Wolfensbüttle, home of their famous knight ancestors of the twelfth and thirteenth century. Their ancestors had acquired this land from the royal Hapsburg families of Austria. Wolfensbüttle today is known for their manufacture of one of the world's most famous automobiles, the Volkswagen. In fact, the symbol proudly displayed on the hood of the Volkswagen is the crest of Wolfsburg, taken in part from the original Wolfensberger coat of arms.⁴

In Rotterdam, the Thistle of Glasgow took on additional supplies for the long journey across the Atlantic. The number of passengers and crew totaled about 200. This German-Swiss family, headed by Johannes Wolfensberger from Alsace, Lorraine, departed for Lancaster County, Pennsylvania. With Johannes were his wife, Anna Margaretha Entzminger, and their children: son Peter and his wife, Apollonia Brunner; daughter, Maria Ursula; and sons, Fredrick and Johannes. ⁵ Ocean crossings were difficult. It is likely they rocked and tumbled, day after day, from the wind, rain, and surf. On calm days with little wind and a beautiful sky, the children could play on deck while the older folks would pray and sing songs. Younger adults could spend time doing necessary chores.

During the weeks of the voyage, many passengers would become ill and a few would almost always die. During the Thistle's voyage, the Captain and one of the crew became ill for a few days, but no deaths were reported. With good fortune, on a clear day the crew found the coast of Newfoundland. The ship sailed on past Boston and New

Amsterdam. The passengers grew more excited because in just a few days they would sail up into the warm waters of Chesapeake Bay and into the City of Brotherly Love, Philadelphia.

After the ship docked, passengers were required to stay aboard for about two days to give the port authority time to process the new arrivals into the British Commonwealth of Pennsylvania. This was a hellish time. The small ship was crowded, and unlike when they were at sea, there was no breeze to blow away the stench that quickly became unbearable. Finally the Wolfensbergers were allowed to depart the ship and begin their journey to Lancaster County.

After living in Lancaster County for a few years, the family moved to Lebanon, Pennsylvania. The family acquired a total of 771 acres. Even though he had been trained as a carpenter and a brick mason, Johannes, junior, worked as a farmer in Pennsylvania. In addition, he also developed some patents. At his death, Johannes willed this property and his patent rights to his widow and children. Some of these land rights were located in Virginia. All of Johannes sons eventually left Pennsylvania.⁶

After a few years living among the English, the Wolfensberger families began to have problems. The English colonists did not understand why the Germans were not changing their habits to better fit into the British colonies. They were being criticized and made fun of by their English neighbors. The Germans also did not understand British Law; they were having trouble maintaining claims to their land. Strife began to develop in the families over the changes they would need to make to be accepted by their colonial friends. Soon the Germans

realized they needed to move from their home in Pennsylvania, thus beginning the century long journey of the Wolfensbergers through western Virginia to eastern Tennessee.

The leaders of the German families had learned of a strong European influence across the Blue Ridge Mountains, the French. The Wolfensbergers, along with other continental families, naturally wanted to try and save their heritage, so they took advantage of the opportunity to travel and homestead in Shenandoah and Greenbriar Valley in the Virginia Territory. This area was mainly settled by Germans from Pennsylvania, but was largely under French control. The French influence on the territories west of the Blue Ridge Mountains seemed to be a place in America where the family's heritage could be preserved and they could live in the old way. They began the long and arduous task of moving their families into the wilderness of Indian Territory south of the Ohio River. It was worth it to them to try and save their language and culture.

The French Government had long desired to establish a position in the New World. They found it at the mouth of the Mississippi River. The British had outmaneuvered them on the East Coast, and the Spanish controlled Florida and much of the Gulf Coast. The Louisiana Coast was perfect. They wedged their way between the Spanish and the English by traveling up the Mississippi River and took control of the center of this huge new continent. This territory stretched from New Orleans to Quebec and included the Ohio River Valley. The modern states of Tennessee, Ohio, Indiana, Kentucky, and western Virginia were all part of this territory.

This movement was cause for concern by the English. They began to establish forts just beyond the Appalachian Mountains to protect their rear. Fort Loudon on the Tennessee River down in the Great Valley, Fort Pitt at the confluence of the Allegheny and Monongahela Rivers, and Fort Savannah in the Blue Ridge Mountains were all examples of this effort. Fort Savannah was established in 1751 by a missionary named Anderson and a soldier named Colonel John Stewart. Located in what is now Greenbrier County, West Virginia, Fort Savannah was also the site of the first school in the area. These forts offered protection for the British from the French, and they also helped them in their attempts to establish relations with the Native Americans of the western frontier. ⁷

However, these forts also were a source of concern to the British. They were very far from London and control. In addition, they did not just support soldiers. The colonists who followed the military expected the soldiers to also protect them. As a result, King George III issued orders that British subjects could not settle in these western lands. He had enough problems with the colonists without also having to worry about settlers in Indian Territory.

Upon arrival in Virginia Territory, the Wolfensbergers settled in a town named Muellerstat, which was later renamed Muellerburg. This town was named after Jacob Mueller, another German colonist. The Wolfensbergers and the Muellers had met on the Thistle of Glasgow's ocean crossing. Mueller had received the land grant from Lord Fairfax, the Governor of Virginia, who had been appointed by King George III. After the Revolutionary War, the town's name was

changed once again, this time to Woodstock. All trace of its German origin was removed. Woodstock was soon chosen as the county seat of Shenandoah County.⁸

The Wolfensbergers were now among friends in Muellerstat and living in a culture they understood. Johannes' son, Peter, met Susannah, the daughter of Jacob Mueller, and they married in 1772. Peter's younger brother, John, married Susannah's sister, also.

Peter, John, their brother, Philip, and their wives left Muellerstadt to start their own town in what is now Greenbriar County, West Virginia. There Peter and Susannah began their family. Daughter Susannah was born in 1775, followed by Mary, Elizabeth, and their first son, Joseph, on October 12, 1780. In 1778, the Wolfensberger family head, John, Jr., had died. Peter now was now considered the head of the family.⁹

The area in Greenbriar where that they settled was located on the banks of what Peter called "Mud Creek". This area was located across the Blue Ridge Mountains and near Fort Savannah. The site was part of the old French territory and far beyond the grasp of the British. Peter called this new settlement in Virginia "Eine kleine Dorf," or Wolfsburg. The town was soon surveyed into lots and streets. The streets were given German names, and the main street was called German Road.¹⁰

As the new frontier town began to take shape, the family continued to grow. Peter had felt confident enough of his future success that he had built a stone home for his growing family on a hill near Mud Creek. The house was expanded later by adding a frame addition. Six more children

followed: Jakob; Peter Amos; Barbara; Philip; Sarah; and Rebecca.¹¹

The area the Wolfensbergers had moved to had a history of unrest. The idyllic community they had hoped to establish where they could speak their language and preserve their culture was caught in the middle of a struggle between the French and the British. The borders in the area were not clearly defined. The struggle between France and England in Europe was also occurring here in the wilderness. The British knew that with the French established on the vast Mississippi watershed, they would have to work to protect their colonies from the rear. The native Indian nations were caught in the middle. The French seized the opportunity and encouraged the Indians to join their side. The British were rapidly encroaching on native lands, so the Indians eventually agreed to help the French.

The British Government sent a young officer, George Washington, into Pennsylvania to drive the French and the Indians off the Ohio River and out of France's eastern outpost, Fort Duquesne. Washington was successful and the fort was renamed Fort Pitt. Fort Savannah was captured by Colonel Lewis and renamed Fort Lewis in his honor. The British took control of the western regions of the Blue Ridge Mountains all the way to the Mississippi River. This new area was included in the territory of Virginia.¹²

After the Revolution, the Commonwealth of Virginia rewarded their military personnel with large land grants in the western territories. These recipients included such heroes as George Washington and Colonel Lewis. Colonel Lewis took control of Wolfsburg and renamed it Lewisburg. Lewis changed all the German names and German Road became

Randolph Street. Lewis placed the town under martial law in the control of a man named Captain Edger. Because there were no property deeds, Edger confiscated all the land and auctioned it. He took Peter Wolfensberger's home and land, but he allowed Peter and his family to continue living in it. Edger held the property from 1778-1799, when the deed was transferred from Edger to Robert Roebuck and wife. Peter was listed in the deed as Peter Wolfenbarger, occupant. This is the first known change in the spelling of the name from the traditional German Wolfensberger to the more English style Wolfenbarger.¹²

After Virginia took control of the Wolfenbarger property, Peter was placed in charge of the county's local jail. He was later drafted into the Virginia militia. He was sent back to Woodstock to fight with the Eighth German Regiment for the colony of Virginia during the Revolutionary War.

Upon his return, he found out Susannah had died. Although Peter and his family had fought for the colonists, they were resented by many of the new settlers. Germany had sided with the British during the Revolutionary War, and Peter and his family were resented for their heritage. The family was eventually driven out of Lewisburg and Greenbriar Valley.

As a group, the beleaguered and discouraged family began the move down Wagon Road South, past Roanoke to Wytheville. At some point Peter had met and married a woman named Milly Hansen. Peter was joined by his brothers, Jacob and Benjamin, and their families. The families only stayed in Wytheville for a year or two before moving further into southwest Virginia.

Even though he was approaching 60, Peter had another child, Milly, with his second wife. Knowing that additional children might soon come, Peter began to look for more fertile ground. They moved again, this time settling into the area surrounding the headwaters of the Powell River near the Cumberland Gap. Here he homesteaded 600 acres twelve miles east of Cumberland Gap in an area called Rose Hill.¹³

Once again, though, this 65-year-old soldier, frontiersman, and pioneer needed to move. It had been eighteen years since he had lost his first homestead in Greenbriar County, West Virginia. He was still determined to find a better life for the Wolfenbarger family for which was still considered the leader. He, his second wife, Millie Hansen, and several of his older children and their families left Rose Hill, Virginia, behind and moved further down the Powell River. Along the creeks which drained into the Powell River in upper east Tennessee, the family built houses, farms, mills and churches. This valley is now known as Wolfenbarger Chapel.

The Wolfenbarger Chapel Valley lies just across the border from Virginia on the Powell River, and even though it was surrounded by mountains beautiful to look at and behold, it still had the same unproductive soil and harsh winter climate that had caused Peter to leave his homestead in Lee County, Virginia. It seemed that all the soil would grown was stones.

Peter was now past seventy years old. In 1820, the family moved south again by following the river, settling in a community known as Washburn in what was then Grainger County. Peter owned land scattered throughout the valley from southwestern Virginia to Rutledge, Tennessee. Some

families lived in the area then known as Hawkins County, but what is now known as Hancock County. Others in the family migrated down the Wilderness Road to Cumberland Gap, while others followed a wagon road, now known as Highway 25, south to Tazewell and Harrogate, Tennessee, in what is now Claiborne County. At the time, though, this was known as Hancock, then Grainger County. Claiborne, Knox, Grainger and Blount County were all carved out of the original Hawkins county. ¹⁴

Peter Wolfenbarger died in Knoxville, Tennessee, in 1834. He had been denied a pension for his service to the colony of Virginia during the Revolutionary War and the United States government during the War of 1812. Milly Hansen was granted a widow's pension after his death. Peter's final land acquisition was twenty-nine acres on Beaver Creek in what is now the Halls Crossroads area. ¹⁵ Some of his children had settled in that area. Many of his direct descendants can still be found between Knoxville and Maynardville.

Peter's greater family, including his brothers, John, Philip and Benjamin, were scattered. Some had been driven into Ohio by Colonel Lewis, and some of those who had not left Virginia were sold into slavery. Other eventually returned to the Greenbrier area of Virginia, but they continued to have little success in this valley that had been their first Virginia home. Even though Peter, his first wife, Susannah, and his brothers, John and Philp had founded this area which became Lewisburg, West Virginia, their names have largely been forgotten.

Perer Wolfenbarger lived for a while in Greenbrier CO., VA. now W. VA. A book written in 1942 by Ruth Woods Dayton, " Greenbrier Pioneers and Their Homes ", states " the buildings thereone occupied by Peter Wolfenbarger and Robert Crawford " this quote was taken from a deed recorded in Greenbrier CO., 1792 and printed in a chapter titled Market Street Stone House page 128 - 129. The deed is refering to the Stone House located on Market Street (Court Street across from the Court House) at the corner of Randolph Street in Lewisburg, W. VA. On the inside cover of the book is a simple grid map showing the original plat of Lewisburg. On this plat is located lot # 4, the site of the Market Street Stone House and the home of Peter Wolfenbarger for several years while he lived in Greenbrier, Virginia. Peters first wife Susannah Miller is probably from the are, they were married in Greenbrier CO. about 1773 he probably moved after her death in 1805, Susannah should be buried near Lewisburg, Peter married Milly Hanson Feb.27,1807 in Lee CO., VA.
